

Werksteam succesful at Bike Festival Willingen – Platt podium finish

Three Werksteam pilots started at the Bike Festival Willingen. All of them finished with a Top10 rank. Finishing 2nd on the short track Christopher Platt made it to the podium. At the Worldcup in Nove Mesto Moritz Milatz was facing a tough race.

Moritz: „Position 45 was far beneath my expectations. Starting as 60th I could just avoid a crash at the start. Therefore I was about the same position after the opening lap. At this time I had to start to make up some positions. As much as I fought, my body did not release enough power. In the end it was the 45th position.“

Christopher: „After the start I was able to take the lead and tried to push hard from the beginning. After that I looked for my rhythm. Unfortunately I was not able to catch the leader. At the end I was sprinting for place two.“

Pirmin: „After a really bad crash in the first decent I lost connection to the leading group. I chased them all race long with a gap of one minute, slowly closing it. It was a petty the finish line came to fast and I had a backlog of 20sec to the podium. Still happy about 4th place.“

MTB Festival Achensee and the Weltcup Albstadt are coming up next weekend.
